Grades must be entered in the Certificate by their descriptors.

Subjects not part of the programme or not graded should be invalidated by drawing a horizontal line.

The total number of annual contact hours determined in the local curriculum (and not the actual hours) should be entered under Contact hours. In the vocational training grade the contact hours for the semester must be entered in the case of one-semester training and higher-level training in the context of an accredited school system.

In the case of merged or integrated subjects the subject or module taught should be added in the original line or in the Notes together with the total number of (annual) contact hours.

If an integrated Science subject is offered the constituent subjects taught should be entered in brackets in the original line or in the Notes.

Subject offered from the school's disposable tuition time are entered in the blank lines.

Detailed achievements in basic education in the chosen vocation group may be entered on the last page of the Certificate.
